Dear Sir:

I noted your advertisement in the Numismatist and I believe that I have what you are looking for.

I have a group of several thousand Georgia banknotes and scrip,covering all types and varieties.I am willing to send you selections priced on some fair basis so that you can improve your collection. Primarily I would like to know how specialized your Georgia collection is,namely do you collect the notes from each branch of banks like the Bank of the State of Georgia,do you collect different plate letters,signatures, etc.In order to list the notes I send it will take a while and I will have to send them in installments unless you have an inventory.

As to buying from you I am looking for any Missouri banknotes or scrip I do not have and would appreciate knowing what you might have. I also would like the following southern state issues of the Civil War period :

Arkansas $10. October 2,1874
Florida $500. October 10,1861
Georgia $4 January 1,1863
Louisiana $3 Ceres February 24,1862 (probably doesn't exist)
Mississippi $100 Railway train Faith of the State pledged
Mississippi $50 Eagle and shield Aug 12,1864 unsigned
Texas $50 ships military
" $20 ceres civil
" 100 Lighthouse and ships both civil & military

Let me hear from you if you wish to buy the Georgia items and I will go to work on them.As I come to railroad and turnpike items of the other states I will hold them out for submission to you.

Very truly yours,

4/0-A West Enterprise St.
North Charleston So. Carolina.

Mr. E. P. Newman
St. Louis. Mo.

Dear Mr. Newman.

Your letter at hand and noted. Thanks for writing.

In regard to the Ga. Collection, I collect any note that was ever issued in Georgia, this includes Bank, R.R. and all script, State and Colonial and of course Notes of cities, counties and etc. I do not collect the same note with different plate letters but if the note is otherwise different, no matter how small the difference I want it. I also want notes from the branch banks even tho they are the same as the parent bank. I should have said I do not want two notes alike although they are signed by different people. This collection is a big job without specializing in plate letters and signatures. Maybe later I will take that up. So send anything relating to Ga. You may think I have all the common notes and decide not to send them. This is not so. send ever Ga. note you come to. I'll return what I do not have. and often I may have a poor copy and if yours is better I'll take it.

In regard to other notes, I want, any R.R. Canal, turnpike, Plank Road Stage coach or any note relating to transportation from any state or Canada -
I also want State of Ga - 20 cents - #3 and #4 of Jan 1 1863
$50 Slathrope of Jan 15 1865 -

I will be pleased to receive a selection of these notes on approval, I'd suggest you send a 150 or 200 at a time. I'll make prompt returns, and take all I can - then you can send another till you have sent all.

In regards to the notes you want, I want most of those also. I believe I have the Miss. & Texas notes at home, and the first time I go back I'll look them up and send them to you. I know I have the Texas, as I have all the Texas notes and many duplicates -
You see I live in Jackson Georgia - 300 miles from here, and I probly wont get home till Xmas as my family are here, although we have our home there. I am working in the U.S. Navy yard as plumber and after the war ends I'll be in Jackson for good then.
I need quite a few of the Southern States notes but we will get to that later -

I just went home a month or so ago and carried what notes I had here as I have a safe there and here it is hard to keep up with them, although I have several hundred notes here -
I picked up here a couple of weeks ago 2 sheets of State of S.C. notes, similar to our old large Currency - they are numbered and signed and dated Mar. 2. 1872 - Sheet 1 - 5. 5. 10. 10. the other 20. 20. 50. 50. the 5's have Marions secret photo in left - the 10's have Whites Rescue. 50's large Bust of Washington - they are green backs and on each reads "

"Issued under an act to relieve the State of South Carolina of all liability for its guarentee of the bonds of the Blue Ridge R. R. Co., by providing for the securing and destruction of the same. Mar. 2. 1872."
There are beautiful notes and the first I have seen - & will make a nice addition to my notes -

I used to be a member of the A.N.A. my number was 2258 I joined about 1921 or 22 and after a few years dropped out. I have took the Numis. all about all this time. and lately F. Zerbe asked me to come in again, so my application is in Aug. issue -

If you send the notes by Express, send them to Charleston as we have no ex. Co. here. They deliver and pick up out of Charleston So address it Charleston and put my address on it - Many send notes by P.P. ins. which is a good way too. if you care to send more than 200 notes at a time it is OK with me.

Yours very truly G. W. Matheuson

IMPORTANT INFORMATION, Please Read Carefully

I will give you some information describing our method of buying, etc., and will try and make it clear so that you can understand it. Where I use the word "items," I mean coins, stamps, books, relics or anything else I buy.

You probably wonder why I buy these seemingly worthless items. There are collectors who collect these different items and I have over eighteen hundred on my list, and am always in the market for items for them. My own hobby is collecting paper money of all kinds.

The true collector does not advertise but depends upon his dealer to supply his wants, and what is of no value to you may be prized by him. Then again if a historical society or a library wants a special item they call on the dealer. Many times we do not have it in stock at the time but when we get it we send it to them, that is why we are always on the lookout for collectors material.

Why not look through your attic, those old bureau drawers and in that old trunk or boxes and send me a list of what you have, or better still send me the items that you think I can use, I'll return them if I can not use them. But do not send large items like clocks, spinning wheels, etc., write first and describe. And when describing give the following information as best you can.

In describing MONEY & STAMPS and like items, state country made, date and denomination.

In describing LETTERS & DOCUMENTS state nature of contents, date and length.

In describing BOOKS state title, date, author and where printed.

In describing PICTURES state title or what the picture is of, size, color, and name of the printer.

OTHER ITEMS. Describe as best you can, stating any words, letters, or marks that will help me identify it. When describing anything always be sure and state the condition as best you can, also state how many items you have of each. If you wish you may tell me what you want for them.

SHIPPING. Small lots may be sent by mail, larger ones by parcel post or express, and if valuable should be insured. Books have a very low rate of postage, but to get it the package must be marked "BOOKS" and the package should contain no writing, but describe in a separate letter or post card. Always be careful in packing so that nothing is lost in transit. Paper money, stamps, envelopes, and letters should be packed flat, do not fold or roll. Pictures, large documents and manuscripts should be rolled, for when old paper is folded where it was not folded before will break. Do not put coins or medals loose in the envelope, wrap them before sending. Do not forget to put your name on the package.

PRICES PAID. You will find most points covered except prices paid. Due to the nature of the items it is impossible to issue a price list. It is also almost impossible to quote prices, since so much depends upon the condition and the demand, and unless we have the opportunity to see the items which we are to buy we cannot make offers that will be fair to you. Experience has taught us that there is a very wide difference of opinion as to condition as well as other details necessary for us to know.

The way every dealer does, myself included, is after you send me the description of the item I will inspect it and send you an estimate of what I can pay. For example you describe a coin or stamp. I will estimate the price of the item sent as from five to fifty cents, or from six to ten dollars as the case may be. And this means that the price will not be lower than the lowest price, nor higher than the highest price quoted, and it may be anywhere between according to the condition. Of course if I could identify the item and knew its exact condition I could tell you its exact price.

Contrary to the general belief the age of an item does not determine its value, but the scarcity, demand and condition determine its worth. For example, a Roman coin over a thousand years old may be bought for less than a dollar, because a great many were made and they are plentiful. On the other hand some of our U. S. coins not twenty years old are worth three hundred times their face value, because only a small number were made and they are scarce and eagerly sought after by collectors, they are in demand and they bring a good price. This applies to all items I buy. It also applies to everything you buy. When a certain article, take wheat for example, is scarce flour is high, if there is plenty of wheat, flour will be cheaper, so it is with everything. Scarcity makes good prices, plenty makes lower prices. Then the condition has much to do with the price, the better the condition of anything the better the price, and the items I buy are no exception.

And because of this fact all items must be examined by me before I buy them. If you can describe so I can identify I will tell you about what I can pay, but not exactly, because I would not know its exact condition. You would not buy items of this nature without seeing them, nobody would. Also some of the items have no set value, just what the seller and buyer might agree upon.

So the way I have done for over thirty years is to have the items sent to me, then I examine them and send you my best prices and hold your items until I hear from you. If you are pleased with my offer drop me a card and I will send the pay for them. Or if for any reason you are not satisfied notify me and I will return your items to you.

Our best references are over thirty years in the coin and stamp business, and the paper in which you saw my ad, the papers of today do not take fraudulent ads.

Dear Mr.Mathewson:

I have listed and priced a small group of the Georgia notes I have for sale and am enclosing them herewith.I hope you find some that meet with your fancy.I will keep on sending your further different lots from other issuers as each group is returned and in that way I will not wear myself out all at once.

Since you have a lot,of the Texas notes at home I will buy from you such of them as I need. I picked up all of the star notes except the $500,I ahve the government and republic of texas complete,but there are treasury warrants I need in addition to those I mentioned to you.

The sheets of South Carolina notes are most interesting . I have the set but I certainly have never seen them in sheets.They are rare enough in singles as far as Southern post-Civil War issues go.

Your circular indicates that you are an expert in many fields. I stick to coins and paper money and have a tough time trying to learn what I should with respect to that, I have a pile of confederate bonds which I know nothing about, except that one payable in England is the best.

You are not the only one who is dislocated because of the war.I have been doing engineering work and trying to keep up the practice of law which I devoted all my time to in the good old days.As soon as the war is over I hope to go back to law again. I have at least been able to live at home,but my hours are so long I hardly ever see the place in the light.

With best regards,

Notes & letter came today. and noted. I have selected notes to the value of $22.85/ on which I am enclosing check. I found several that were in better condition than mine and would have taken a few dollars worth more but I need so many and do not want to buy duplicates unless at a low price -
When listing notes if you put the number of the notes on it would be easier for you to keep up with them - However I did very well with these - and will be on the lookout for another consegnment
I will remember about the Texas notes -
In re- the sheets of S.C. postwar notes I paid 15 cts for the two sheets.
Later I would like a shipment of Con. bonds - I have a good many but want as many different as possible. Hardly any one buys bonds as they are hard to house, they also large - I will buy all you ~~have~~ if we can get together on the price now -

Best wishes and hope I have not made a mistake figuring the notes, if I have let me know

Dear Mr. Mathewson:

I am enclosing herewith a new group of Georgia banknotes itemized on the accompanying list.I hope you will be able to find some that you can use in this group and I will keep sending further groups as I promised.

As to cases where my specimens are in better condition than yours are please keep a record on you list of those cases and when we finish we can try to come to some arrangement whereby you can exchange the same notes with me and work out the difference in some fair manner.

You will end up having one of the finest collection of Georgia banknotes in the country. I was not kidding when I said that I had a real batch of them.

Dear sir.

Letter & notes at hand and have selected those I did not have and I'm sending check for $13.50 to cover. Sorry I could not use more but I had all the rest, and you did not send only about ½ of what you used to send, that is one reason the check is no larger. I took over 50% of the notes sent and that is good for approvals - wish I could do as well every time. Kathy. New year to you and yours.

Dear Mr Matthewson:

I finally shipped out today a set of Confederate bonds. There are 70 plus 4 southern bonds. Included is the extremely rare Cotton Pledged issue payable in London Frankfort or Paris + with an English revenue stamp embossed I believe the group is worth $150.00. They are all different and most interesting.

Sorry I was so delayed but I had too much work to do to catch up.

Dear Mr.Mathewson:

I have checked a little further on the value of Confederate bonds and while I am not prepared to agree with you 100% I am not fully inclined to disagree.This is a subject I do not know much about and I am very glad to have your opinion.

Primarily I want to sell the bonds as a whole if I sell them at all. I do not believe you appreciate how rare some of the items are especially the 7% cotton bond which is so rare that few people have ever seen them and they are held in England today for redemption by some people who hope the U.S. will assume the obligation.There are a number of other bonds in the group which are engraved and are of much morevalue than the later printed ones.

To sum up the entire situation I am willing to go along with you in the price most of the way but I believe that your suggestion is too low. Make it an even $100 and then you have one of the best sets of bonds in existence.

Excuse my terrible typing ability , but I can do better if I am not rushing to meet my swap ride which leaves with or without me in a few minutes.

Sincerely yours,

Dear Sir,

Your package came while I was at Jackson Ga., due to sickness in family I note you priced by the lot and will say that I have a great many of them so If I bought all I would have too many duplicates and bonds are not easy to sell, I can sell notes, but bonds being so large and hard to keep, and also not as few are buying them - I thought you would send priced absolutely as I could select those I needed as I have been doing. Could you send bill of each. I feel the price asked entirely too high ~~under~~ as it would give me too many dups. I would be willing to pay $75.00 for the lot or if you will send price on each I will select just what I can use, and return the rest Sorry to have not written before but just got home today - Ft Matthews Ga -

I might state that I have bought a great many of the smaller bonds & Certificates at 40c each

Send in Bollender's sale of Feb 6 -

I bought 1-100 C.S.A bond 1st. Issue 1863 .50c
1-100 " " Mar 2 " .90c

1-1000 State of Alabama Warrants at 1.10

all with coupons attached

I am writing this to show that the average bond sells at around 1c each at most. You have a few exceptions and a couple of old especially rare -

My dear Mr. Newman.

Your letter at hand and noted, and thank you for making the price at $100.00 but as I stated in my letter that bonds are hard to keep in order and should due to the size. And while I would be glad to buy any I did not have for my collection. I do not feel like paying the price you ask for the lot. it would give me too many duplicates which I would have to sell, and it cost money to sell one or two at a time, and besides there are not many who really collect them. most people just want one or two of the low

Priced ones or selected ones. That is why I made the offer of $75.00 for the lot - and I believe if I bought them at that price I would not make much on them and it would take years to get rid of them.
Yes I realize the cotton bond is rare, I have only had one other offered me in years -
To be frank with you I am not so enthused about buying them, as I stated it is a job to keep them. They ought to be stored flat and one can hardly find room for them -
I would rather buy notes, and when you said you would send bonds I thought you were going to send on approval the same as you sent the notes and I could select those I needed. I always paid a good price for notes I wanted for my collection but for resale one hoots buy much cheaper.
I ~~still~~ feel I can only pay $75.00 for the lot and if you feel you can not sell for that price let me know & I will return them and no hard feelings on my part & hope none on yours -

Dear Sir.

Card at hand and noted, find $75.06 to cover -

I am sorry I could not pay the first price asked, but as I could have only used around 20 bonds for my collection I felt that the price offered was all I could afford to pay. As a rule I never try and beat down a price. I always take it or leave it - and had you sent the bonds priced seperate I would have selected those I needed and return the rest but as you wanted to sell as a whole, Well that was different. I still think if you had sold them at one or two at a time you could have got your price, but think of

the time spent as well as postage.
when I go home I sell these items
at retail and at costs plenty to advertise
and other expences -

I think you said you would send
the Southern States notes next -
while I do no pretend to tell you how
to price but I would say price as low
as possible because a great many of mine are
in fair condition only and would
replace these if priced so I can afford
to, otherwise I will have to wait.
But send them on I'll take all I can and
return the rest.

Sometime when you have time tell me
how you came to have all these notes.
Also give me a rough estimate of
the notes you have of different states
and if you would consider selling
at wholesale.. Rep G. H. McPherson

Dear E.P.

Letter & notes at hand and noted. I know you are busy. I am working nights, 4.45 to 2.30 have lots of time on my hands. That is why I want to get straight on all deals started for when I get through here, believe me I am going to take a nice long vacation, as I have worked steady for 2½ years hardly loosing a day - It looks now like it wont be long at the Navy Yard. They have cancelled orders for a great many ships - Mostly repairs from now on and it wont take 27000 workers either. I am looking for about 15.000 lay off very soon & I will be one of them - as I am 64 years old and just signed up for the duration, and not more than 6 months after.

Inc. find check for notes left - $36.50

Thanks - G.A. Mathewson.

Would like to see anything you have in any notes of any Southern States, also Confederate

but I am not ready yet as I have just started and have a great many to pick out of my duplicates.

I am especially anxious to enlarge my collection of R.R. notes & will pay more now as I have a friend in new york who is trying to make his collection larger than mine — he has my list & I his and if I run across anything he does not have and I do, I get it for him & he does the same —

Any way I will be looking for the Sou. State & let me know about the Confederates & send them in. I'll make returns at once as usual —

Very respectfully Yours —

L. N. Matthews

If you get any bonds I haven't got send them on —

Dear Mathewson:

Your check for $17.25 fell short of what you took. You omitted to add the items on the first page, I believe, and they total $4.25. Please check me & you will me correct as the 17.25 covered only the Virginia items & a Florida item & no Mass. items. I enclose Confeds of the 1864 series — all different & the prices will be according to Chase's listing after I see what you can use. This is a real work out to go thru these Confeds, the $500 in lovely condition is $3.25, the other $1.25. The 8 $50's have a flourish over CoNetc. The 3 $100's are different series. The 21 $10's have one or two flourishes over ICA and sometimes none over THE with different series. There are 10 $10's, 6 $5's, 3 $2's, 1 $1.

I have a set of 50¢ 1864 with all plate letters of all types & flourishes. Are you interested?

I also have a book full of Confed & State & County & Bank notes collected at the Charlotte Mint by Colonel Cole, the Director of the U.S. Branch Mint there. It's interesting & will have about 150-175 notes I guess. Are you interested?

Dear Mr. Newman.

I thought I better drop you a line to tell you that the packag or Book of notes had not arrived here yet, as I am always prompt in making returns or answering correspondence.

The letter containing the notes arrived at N. Charleston on the 31st of Aug. just as we were leaving for home, (Jackson Ga)

On the 7th of Sept. I got several notices from the P.M. in N. Charleston stating I had several peices of mail and for me to forward postage and they would be sent me. Among them one was discribed as a package and it would cost 18 cents to forward it to Jackson.

The same day I sent postage for all and have received all but the package—

of course I did not know but felt sure it was your package. as you said you had sent it - It has been four days since the other Mail for which I sent postage came and it should have been here. Any way as soon as it shows up I will answer your letter and let you know about the books. That is why I havent answered before -

Dear E. P.

The book of notes just arrived and I have looked them over and find that as the notes are glued in, (and I can not use them that way) it would cost quite a bit to remove them and some would be destroyed. And as there are no really rare ones and many are not in nice condition I do not believe I could use them. so will return to you under seperate cover. I am sorry but as I stated I would have to remove them & I just haven't the time.

As to the notes sent in letter. I have nearly all. Selected – to amt. of $4.50

For notes selected and kept 1.50

For Ark bonds —— 2 ——

Please find check. $8.00

yes I could use another set of the Texas if they are in as good condition as the last – If you have any of the 1-2-3 of Grants of Tex send them & also any thing else in my line.

Dear Mr. Newman—

I am sorry but I failed to find anything for I has batch that I need—

the R.R. transportation. You have sent before, I have all the notes you sent with Jackson—

And the others while old are some in nice condition. I do not think I better stock up on them as I would have to buy to sell and I need so many notes for my collection and cash is short and had better buy only notes for my collections—

Thank you for courtesy—

Dear Mr. Newman-

As I have not heard from you in a long time I thought I would write and see if you had anything new in my line- I very much desire to enlarge my collection of notes relating to Georgia, also R. R. and Transportation notes. I also want Rep.& South. notes specially want a 82. South of Texas note- Am not interested in Confederate and So. States notes, as I have a stock of duplicates, and do you list by Bradbeer's numbers. If so I will send my want list. Will be glad to look at anything you may send on approval-

Yours

G. H. Mathewson
